## Education

---

### New Jersey Institute of Technology

B.S. Information Technology

September 2022 - Expected December 2026

Newark, New Jersey

### Relevant Coursework

**Courses:** Intro to Computer Science, Internet Applications, Database Design Management & Applications, System administration, Intro to Python, Web Development, Analysis & System Design, Java Programming, Network Technology.

## Skills

---

**Languages:** Java, Python, SQL, JavaScript, HTML5/CSS, PHP

**Libraries & Frameworks:** React, Bootstrap, MySQL

**Tools:** Git/GitHub, Linux

## Projects

---

### E-commerce Store | React, CSS

- Developed a fully functional e-commerce platform for purchasing soccer jerseys.
- Implemented a shopping cart with state management using React hooks.
- Designed a responsive layout with CSS for an optimal user experience.

### Crypto Price Tracker | Python, PHP, SQLite3, CSS

- Developed a crypto price tracker using Python and an API to fetch and store real-time Bitcoin and Ethereum prices.
- Built a backend system with SQLite3, automating data storage and updating every 10 minutes.
- Created a dynamic web interface in PHP to display live cryptocurrency prices in a table, integrated with the backend.

### Bank Account System | Java

- Developed a Java-based banking system supporting account creation, deposits, withdrawals, and transfers.
- Implemented interest application for savings accounts, enhancing user experience with automatic balance updates.
- Created transaction history tracking to log and display all user account activities.

### Portfolio Website | React, Bootstrap

- Engineered a responsive portfolio website using ReactJS, and Bootstrap
- Integrated React Icons and Bootstrap components for a modern UI.
- Utilized CI/CD with Vercel, enabling seamless deployment

### WeatherApp | HTML/CSS, JavaScript

- Developed a weather application that fetches current weather data for any given city using the OpenWeatherMap API.
- Utilized JavaScript to handle user input, make API requests, and display the results in real time
